VOLUME 74 · SUBJECT INDEX

Ablation
Is ventricular ectopy a legitimate target for ablation? **96**
Non-surgical ablation of the ventricular septum for the treatment of hypertrophic cardiomyopathy **479**
Ablation of atrioventricular junction, Prospective study of left ventricular function after radiofrequency ablation of atrioventricular junction in patients with atrial fibrillation **261**
ACE gene, Angiotensin converting enzyme gene deletion allele is independently and strongly associated with coronary atherosclerosis and myocardial infarction **584**
Acoustic quantification, Left atrial size and function **664**
ACTA (Association of Cardiothoracic Anaesthetists of Great Britain and Ireland), Risks and results of surgery **702**
Active compression-decompression, Cardiopulmonary resuscitation with active compression-decompression **212**
Acute inferior myocardial infarction, Is thrombolytic therapy really better than conventional treatment in acute inferior myocardial infarction? **476**
Acute myocardial infarction
Baroreflex sensitivity and neurohormonal activation in patients with acute myocardial infarction **21**
Clinical significance of inferior ST elevation during acute anterior myocardial infarction **611**
Early discharge after acute myocardial infarction **71**
Early remodelling of coronary stenoses after thrombolytic treatment in patients with acute myocardial infarction **229**
Prospective study of patients aged 55 years or less with acute myocardial infarction between 1981 and 1985 **604**
Reduced in-hospital mortality from acute myocardial infarction with general adoption of thrombolytic treatment in the North West Thames health region 1979–1991 **493**
Rescue thrombolysis **348**
Selection factors for the use of thrombolytic treatment in acute myocardial infarction **224**
Serum lipids four weeks after acute myocardial infarction are a valid basis for lipid lowering intervention in patients receiving thrombolysis **18**
Acute myocarditis, Molecular detection and serotypic analysis of enterovirus RNA in archival specimens from patients with acute myocarditis **522**
Alteplase
Lingual haematoma after treatment with alteplase (recombinant tissue plasminogen activator) for acute myocardial infarction **205**
Rescue thrombolysis **348**
Thrombolytic treatment and proteinuria **354**
Amyloidosis, Atrial thrombi occurring during sinus rhythm in cardiac amyloidosis **541**
Angina
Concentration of circulating plasma endothelin in patients with angina and normal coronary angiograms **620**
Dr Black's favourite disease **696**
Angiographic follow-up, Initial and subsequent angiographic outcome of percutaneous transluminal angioplasty performed on internal mammary artery grafts **615**
Angiography
Angiographic trials of lipid-lowering therapy **343**
Serum lipoprotein(a) concentrations are related to coronary disease progression without new myocardial infarction **365**
Angioplasty
Combined mechanical and thrombolytic treatment for totally occluded bypass grafts **455**
Endovascular stents in children under 1 year of age **689**
Initial and subsequent angiographic outcome of percutaneous transluminal angioplasty performed on internal mammary artery grafts **615**
Should balloon angioplasty be used instead of surgery for native aortic coarctation? **578**
Angiotensin converting enzyme gene, Angiotensin converting enzyme gene in cardiovascular disease **207**
Antenatal diagnosis, Antenatal diagnosis of congenital heart disease and Down's syndrome **192**
Anterior septal malalignment, Implication of anterior septal malalignment in isolated ventricular septal defect **180**
Antiarrhythmic drugs
Effect of low dose sotalol on the signal averaged P wave in patients with paroxysmal atrial fibrillation **636**
Interaction of ischaemia and encainide/flecainide treatment **631**
Antibiotics, Transient reduction of human left ventricular mass in carnitine depletion induced by antibiotics containing pivalic acid **656**
Antibodies, Neutralising antibodies after streptokinase treatment for myocardial infarction **122**
Anticoagulants
Anticoagulants in pregnancy **107**
Efficacy of long-term anticoagulant treatment in subgroups of patients after myocardial infarction **117**
New directions in anticoagulant and antiplatelet treatment **337**
Anti-myosin antibodies, Autoimmunity to α myosin in a subset of patients with idiopathic dilated cardiomyopathy **598**
Antiphospholipid antibodies, M mode and Doppler echocardiographic assessment of left ventricular diastolic function in primary antiphospholipid syndrome **531**
Antiphospholipid syndrome, Left ventricular thrombi in a patient with the antiphospholipid syndrome **202**
Antiplatelet agents, New directions in anticoagulant and antiplatelet treatment **337**
Aortic homograft, Pseudoaneurysm following aortic homograft **645**
Aortic regurgitation, Aortic valve regurgitation caused by blunt chest injury **545**
Aortic stenosis, How should we manage symptomatic aortic stenosis in the patient who is 80 or older? **481**
Aortic valve replacement, Pulmonary autograft replacement of the aortic valve **1**
Aortic valve stenosis, Decreased platelet function in aortic valve stenosis **641**
Aorto-left ventricular tunnel, Echocardiographic-anatomical correlations in aorto-left ventricular tunnel **443**
Aortopulmonary collaterals, Aortopulmonary collateral arteries mimicking symptomatic ductal shunting in a preterm infant **93**
Apical ventricular herniation, Diagnosis of congenital pericardial defects, including a pathognomic sign for dangerous apical ventricular herniation, on magnetic resonance imaging **60**
Appetite suppressants, Appetite suppressants and primary pulmonary hypertension in the United Kingdom **660**
Aspirin, Is aspirin safe for patients with heart failure? **215**
Atherogenesis, von Willebrand factor and its relevance to cardiovascular disorders **580**
Atherosclerosis, Non-invasive measurement of human endothelium dependent arterial responses **247**
Atrial activation, Earliest site of atrial activation in patients with isomeric appendages **305**
Atrial arrhythmias, Atrial arrhythmias and pacing after orthotopic heart transplantation **149**
Atrial defibrillators, Atrial fibrillation **209**
Atrial electromechanical interrelations, Atrial electromechanical sequence in normal subjects and patients with DDD pacemakers **403**
Atrial fibrillation
Atrial and ventricular function after cardioversion of atrial fibrillation **254**
Atrial fibrillation **209**
Dual chamber pacing **76**
Prospective study of left ventricular function after radiofrequency ablation of atrioventricular junction in patients with atrial fibrillation **261**
Atrial mechanical failure, Non-invasive detection of left atrial mechanical failure in patients with left ventricular disease **536**
Atrial pacing, Atrial fibrillation **209**
Atrial septal aneurysm, Use of the reversed button device to treat an atrial septal aneurysm associated with a patent foramen ovale **563**
Atrial standstill, Atrial thrombi occurring during sinus rhythm in cardiac amyloidosis **541**
Atrioventricular block
Disopyramide stress test **650**
Relation between QT and RR intervals in patients with bradyarrhythmias **159**
Atrioventricular nodal reentry tachycardia, Long term results of fast pathway ablation in atrioventricular nodal reentry tachycardia using a modified technique **671**
Atrioventricular node ablation, Atrial fibrillation **209**
Automated boundary detection, Left atrial size and function **664**
Automatic QT measurement techniques, Comparison of automatic QT measurement techniques in the normal 12 lead electrocardiogram **84**

Autonomic nervous system, Baroreflex sensitivity and neurohormonal activation in patients with acute myocardial infarction **21**

Balloon angioplasty, Influence of plaque morphology on the mechanism of luminal enlargement after directional coronary atherectomy and balloon angioplasty **134**
Balloon dilatation of the mitral valve, Exercise ventilation after balloon dilatation of the mitral valve **386**
Baroreflexes, Squatting revisited **154**
Basic life support, Cardiopulmonary resuscitation with active compression-decompression **212**
Bicaval atrial anastomosis, Atrial arrhythmias and pacing after orthotopic heart transplantation **149**
Bifascicular block, Disopyramide stress test **650**
Björk-Shiley mitral valve prosthesis, Strut fracture of the Convexo-Concave Björk-Shiley mitral valve prosthesis **703**
Black, Dr Black's favourite disease **696**
β blockers, Effect of low dose β blockers on atrial and ventricular (B type) natriuretic factor in heart failure **502**
Britain, Guidelines for specialist training in cardiology **571**
Bypass grafting, Effect of the increasing use of coronary angioplasty on outcome at one year in patients with unstable angina **680**

Carbon dioxide elimination, Perfusion/ventilation mismatch during exercise in chronic heart failure **27**
Cardiac catheterisation, Emergency coronary artery stenting for coronary dissection complicating diagnostic cardiac catheterisation **199**
Cardiac function, Atrial and ventricular function after cardioversion of atrial fibrillation **254**
Cardiac β myosin heavy chain gene mutation, Clinical and prognostic evaluation of familial hypertrophic cardiomyopathy in two South African families with different cardiac β myosin heavy chain gene mutations **40**
Cardiac output, Squatting revisited **154**
Cardiac surgery, In-hospital audit underestimates early post-operative morbidity after cardiac surgery **556**
Cardiac tamponade, How do the clinical findings in patients with pericardial effusions influence the success of aspiration? **476**
Cardiomyopathy
Left ventricular morphology and diastolic function in uraemia **174**
Myocardial calcium-independent nitric oxide synthase activity is present in dilated cardiomyopathy, myocarditis, and postpartum cardiomyopathy but not in ischaemic or valvar heart disease **426**
Reversibility of tachycardia-induced cardiomyopathy after radiofrequency ablation of incessant supraventricular tachycardia in infants **332**
Cardioplegia
Evidence that continuous normothermic blood cardioplegia offers better myocardial protection than intermittent hypothermic cardioplegia **517**
Warm blood cardioplegia **571**
Cardioprotection, Preconditioning **575**
Cardiotoxicity, Concentration dependent cardiotoxicity of terodiline in patients treated for urinary incontinence **53**
Cardiovascular disease prevention, Mortality in participants and non-participants of a multifactorial prevention study of cardiovascular diseases **449**
Cardiovascular risk factors, *Helicobacter pylori* infection **497**
Cardioversion, Atrial and ventricular function after cardioversion of atrial fibrillation **254**
Cardioverter-defibrillator, Right sided pectoral implantation of an "active can" transvenous implantable cardioverter-defibrillator with single right ventricular lead **204**
Carnitine depletion, Transient reduction of human left ventricular mass in carnitine depletion induced by antibiotics containing pivalic acid **656**
Carotid endarterectomy, Case for concomitant carotid and coronary artery surgery **97**
Carswell, Paintings of pathological anatomy by Sir Robert Carswell (1793–1857) **566**
Case fatality, Factors determining case fatality in myocardial infarction "Who dies in a heart attack?" **324**
CAST I, Interaction of ischaemia and encainide/flecainide treatment **631**
Catecholamines, Baroreflex sensitivity and neurohormonal activation in patients with acute myocardial infarction **21**
Cavopulmonary shunt, Late systemic desaturation after total cavopulmonary shunt operations **282**
Chagasic cardiomyopathy, Ventricular tachycardia during exercise testing as a predictor of sudden death in patients with chronic chagasic cardiomyopathy and ventricular arrhythmias **293**
Chest pain, Chest pain during exercise as first manifestation of Friedreich's ataxia **464**
Cholesterol reduction, Statins **13**
Chronic heart failure
Anatomical dead space, ventilatory pattern, and exercise capacity in chronic heart failure **377**
Exercise ventilation after balloon dilatation of the mitral valve **386**
Failure of "effective" treatment for heart failure to improve normal customary activity **373**
Inspiratory muscle strength is a determinant of maximum oxygen consumption in chronic heart failure **381**
Perfusion/ventilation mismatch during exercise in chronic heart failure **27**
Chronic ischaemic left ventricular dysfunction, Dobutamine echocardiography and thallium-201 imaging predict functional improvement after revascularisation in severe ischaemic left ventricular dysfunction **358**
Circadian variation, Absence of circadian variation in the onset of acute myocardial infarction in diabetic subjects **370**
Closed chest injury, Aortic valve regurgitation caused by blunt chest injury **545**
Coarctation of the aorta, Should balloon angioplasty be used instead of surgery for native aortic coarctation? **578**
Collagen mutation, Myocardial infarction resulting from coronary artery dissection in an adolescent with Ehlers-Danlos syndrome type IV due to a type III collagen mutation **112**
Complete heart block, Comparison of dual chamber and ventricular rate responsive pacing in patients over 75 with complete heart block **397**
Computer graphics outlining cardiac history, Displaying the long-term progression of patients with coronary artery disease **559**
Conduction system, Morphology of the sinus node in human and mouse hearts with isomerism of the atrial appendages **437**
Congenital heart disease
Antenatal diagnosis of congenital heart disease and Down's syndrome **192**
Echocardiographic detection of congenital heart disease in the fetus **103**
Congenital pericardial defects, Diagnosis of congenital pericardial defects, including a pathognomic sign for dangerous apical ventricular herniation, on magnetic resonance imaging **60**
Convexo-Concave prosthesis, Strut fracture of the Convexo-Concave Björk-Shiley mitral valve prosthesis **703**
Coronary angioplasty
Diastolic aortic pressure rise during percutaneous transluminal coronary angioplasty **242**
Effect of the increasing use of coronary angioplasty on outcome at one year in patients with unstable angina **680**
Percutaneous transluminal coronary angioplasty in patients 70 years of age or older **310**
Plasma mediated neutrophil stimulation during coronary angioplasty **625**
Coronary artery bypass, Combined mechanical and thrombolytic treatment for totally occluded bypass grafts **455**
Coronary artery disease
Assessment of magnetic resonance velocity mapping of global ventricular function during dobutamine infusion in coronary artery disease **163**
Displaying the long-term progression of patients with coronary artery disease **559**
Like father like son? Sons of patients of European or Indian origin with coronary artery disease reflect their parents' risk factor patterns **318**
Long-term complications of cardiac transplantation **341**
Long-term safety of statin-fibrate combination treatment in the management of hypercholesterolaemia in patients with coronary artery disease **14**
Percutaneous transluminal coronary angioplasty in patients 70 years of age or older **310**
Serum lipoprotein(a) concentrations are related to coronary disease progression without new myocardial infarction **365**
Coronary artery dissection
Emergency coronary artery stenting for coronary dissection complicating diagnostic cardiac catheterisation **199**
Myocardial infarction resulting from coronary artery dissection in an adolescent with Ehlers-Danlos syndrome type IV due to a type III collagen mutation **112**
Coronary artery patency, Early remodelling of coronary stenoses after thrombolytic treatment in patients with acute myocardial infarction **229**

Coronary artery remodelling, Assessment of the severity of coronary artery disease at postmortem examination. Are the measurements clinically valid? **528**
Coronary artery stenosis, Assessment of the severity of coronary artery disease at postmortem examination. Are the measurements clinically valid? **528**
Coronary artery surgery, Case for concomitant carotid and coronary artery surgery **97**
Coronary atherectomy, Influence of plaque morphology on the mechanism of luminal enlargement after directional coronary atherectomy and balloon angioplasty **134**
Coronary atherosclerosis, Angiotensin converting enzyme gene deletion allele is independently and strongly associated with coronary atherosclerosis and myocardial infarction **584**
Coronary bypass grafting, Metoprolol treatment for two years after coronary bypass grafting **235**
Coronary circulation, New concepts for interpretation of intracoronary velocity and pressure tracings **485**
Coronary heart disease, Are the pineal gland and the heart closer than we think? **663**
Coronary stenosis quantification, Assessment of the severity of coronary artery disease at postmortem examination. Are the measurements clinically valid? **528**
Coronary stenting, Coronary stenting in the management of myocardial ischaemia caused by muscle bridging **90**
Coronary vasospasm, Severe coronary vasospasm associated with hyperthyroidism causing myocardial infarction **700**
Cross sectional profiles, Cross sectional profiles of systolic flow velocities in left ventricular outflow tract of normal subjects **34**
Cyanotic heart disease, Probable right ventricular dysplasia and patent foramen ovale presenting with cyanosis and clubbing in a patient with characteristics of Noonan syndrome **471**

Data recording procedures, Displaying the long-term progression of patients with coronary artery disease **559**
DDD pacemaker, Atrial electromechanical sequence in normal subjects and patients with DDD pacemakers **403**
Dead space, Anatomical dead space, ventilatory pattern, and exercise capacity in chronic heart failure **377**
Developmental malformation, Echocardiographic-anatomical correlations in aorto-left ventricular tunnel **443**
Diabetes, Absence of circadian variation in the onset of acute myocardial infarction in diabetic subjects **370**
Diastolic aortic pressure, Diastolic aortic pressure rise during percutaneous transluminal coronary angioplasty **242**
Diastolic function, Left ventricular morphology and diastolic function in uraemia **174**
Diethylpropion, Appetite suppressants and primary pulmonary hypertension in the United Kingdom **660**
Dilated cardiomyopathy
Early diastolic left ventricular inflow pressures in normal subjects and patients with dilated cardiomyopathy. Reconstruction from pulsed Doppler echocardiography **419**
Reductions in muscle sympathetic nerve activity after long term metoprolol for dilated cardiomyopathy **431**
Right ventricular filling in dilated cardiomyopathy **287**
Disopyramide stress test, Disopyramide stress test **650**
Dobutamine echocardiography, Dobutamine echocardiography and thallium-201 imaging predict functional improvement after revascularisation in severe ischaemic left ventricular dysfunction **358**
Dobutamine infusion, Assessment of magnetic resonance velocity mapping of global ventricular function during dobutamine infusion in coronary artery disease **163**
Down's syndrome, Antenatal diagnosis of congenital heart disease and Down's syndrome **192**
Dual atrioventricular nodes, Electrophysiological properties of dual atrioventricular nodes in patients with right atrial isomerism **553**
Dual chamber pacemaker
Dual chamber pacing **76**
Reversible ischaemia in hypertrophic cardiomyopathy **220**
Dual chamber pacing, Comparison of dual chamber and ventricular rate responsive pacing in patients over 75 with complete heart block **397**
Ductal shunting, Aortopulmonary collateral arteries mimicking symptomatic ductal shunting in a preterm infant **93**

Early closure, Can early closure and restenosis after endoluminal stenting be predicted from clinical, procedural, and angiographic variables at the time of intervention? **592**
Early discharge, Early discharge after acute myocardial infarction **71**
Echocardiographic-anatomical correlates, Echocardiographic-anatomical correlations in aorto-left ventricular tunnel **443**
Echocardiography
Investigation in general practice of patients with suspected heart failure **335**
Non-invasive detection of left atrial mechanical failure in patients with left ventricular disease **536**
Right ventricular filling in dilated cardiomyopathy **287**
Effect modification, Efficacy of long-term anticoagulant treatment in subgroups of patients after myocardial infarction **117**
Effects of drug treatment, Failure of "effective" treatment for heart failure to improve normal customary activity **373**
Ehlers-Danlos syndrome, Myocardial infarction resulting from coronary artery dissection in an adolescent with Ehlers-Danlos syndrome type IV due to a type III collagen mutation **112**
Elderly patients
How should we manage symptomatic aortic stenosis in the patient who is 80 or older? **481**
Permanent pacemakers and the elderly **9**
Electrocardiography
Comparison of automatic QT measurement techniques in the normal 12 lead electrocardiogram **84**
Determination of left ventricular mass in systemic hypertension **277**
Electromechanical dissociation, Extreme pulsus alternans presenting as 2:1 electromechanical dissociation **695**
Electrophysiological study, Disopyramide stress test **650**
Electrophysiology, Electrophysiological properties of dual atrioventricular nodes in patients with right atrial isomerism **553**
Embolisation, Right to left interatrial communications after the modified Fontan procedure **548**
Encainide/flecainide, Interaction of ischaemia and encainide/flecainide treatment **631**
Endothelin, Concentration of circulating plasma endothelin in patients with angina and normal coronary angiograms **620**
Endothelium
Non-invasive measurement of human endothelium dependent arterial responses **247**
von Willebrand factor and its relevance to cardiovascular disorders **580**
Endovascular stent, Endovascular stents in children under 1 year of age **689**
Enterovirus RNA, Molecular detection and serotypic analysis of enterovirus RNA in archival specimens from patients with acute myocarditis **522**
Epicardial mapping, Earliest site of atrial activation in patients with isomeric appendages **305**
Ethnic populations, Like father like son? Sons of patients of European or Indian origin with coronary artery disease reflect their parents' risk factor patterns **318**
Exercise capacity
Anatomical dead space, ventilatory pattern, and exercise capacity in chronic heart failure **377**
Failure of "effective" treatment for heart failure to improve normal customary activity **373**
Metoprolol treatment for two years after coronary bypass grafting **235**
Exercise protocols, Failure of "effective" treatment for heart failure to improve normal customary activity **373**
Exercise testing, Ventricular tachycardia during exercise testing as a predictor of sudden death in patients with chronic chagasic cardiomyopathy and ventricular arrhythmias **293**
Exercise tolerance, Inspiratory muscle strength is a determinant of maximum oxygen consumption in chronic heart failure **381**
Exercise ventilation, Exercise ventilation after balloon dilatation of the mitral valve **386**

Familial dilated cardiomyopathy, Familial dilated cardiomyopathy **171**
Fast pathway ablation, Long term results of fast pathway ablation in atrioventricular nodal reentry tachycardia using a modified technique **671**
Fenfluramine, Appetite suppressants and primary pulmonary hypertension in the United Kingdom **660**
Fetal echocardiography, Echocardiographic detection of congenital heart disease in the fetus **103**
Fetal heart, Echocardiographic-anatomical correlations in aorto-left ventricular tunnel **443**
